

The Chemical Biophysics Symposium is a gathering place for diverse researchers in the physical and life sciences to generate lively discussion at the interface of the disciplines in an exciting and engaging environment - join us at our next meeting at the **University of Toronto from May 4th-6th, 2018!** We are excited to share that we already have a diverse set of keynote speakers lined up: Professors Teri Odom (Northwestern University), Tuomas Knowles (University of Cambridge), Lillian Chong (University of Pittsburgh), Carlos Baiz (University of Texas at Austin), Susanna Widicus Weaver (Emory College of Arts and Science), and Alexander Green (Arizona State University), with more to be announced in the coming weeks!

Details about the symposium can be found at www.chembiophys.ca. Contact us at chemicalbiophysics@gmail.com if you have any questions or comments.

Hope to see you there in **May 2018!**
