

The MIT xFair 2019 is an annual tech-focused Expo and Career Fair! This year, we hope to gear more towards innovative demos and displays from MIT-based groups, and in particular, we would love to have representation from some MIT UROP groups!

We welcome Course 10 UROPs to showcase a project -- this doesn't necessarily need to be very visual, but something demo-based and/or interactive is encouraged!

Please contact me with questions!
