

# 10-ENG Computing Lunch and Learn

Friday, February 15<sup>th</sup> | 1:00-2:30 pm | Room 66-201

**Chemical Engineering is introducing three new tracks in Computing for the flexible 10-ENG degree.**

Chemical Engineering offers a wealth of opportunity to use computing in the context of chemical, biological and biomolecular systems. These three new concentrations in Computing for the Course 10-ENG degree allow students to address the unique engineering challenges of today.

Come meet our Department Head Professor Paula Hammond, computational research faculty members and awesome ChemE students.

**Lunch from Saloniki**
