

MIT MATERIALS RESEARCH LABORATORY

*Staying on campus
this summer?*

*Need to make some
cash?*

*Want to do
something fun and
different?*

THE MIT MATERIALS RESEARCH SCIENCE AND ENGINEERING CENTER is looking for MIT undergraduates to assist with a one-week summer science and engineering program on campus for a group of local middle school students.

The job involves:

- working full-time **July 29-August 2, 2018**
- supervising the students and assisting them with hands-on laboratory and classroom projects; and
- assisting with teaching some projects.
- for **\$14.00/hour**.

If you enjoy sharing your passion for science and engineering with young people,

please contact Susan Rosevear in Room 13-2050, by phone (253-0916) or via e-mail (susang@mit.edu) for further information and an application.
