

# McKinsey & Company Tech Impact Award

## Eligible applicants will meet the following criteria:

- Currently enrolled MIT undergraduate students in the classes of 2021, 2022, 2023 or MIT Masters with less than 4 years of work experience
- Driving the social initiative using technical, data science, design and/or digital capabilities (e.g., advanced analytics, artificial intelligence, machine learning, Blockchain, user-experience design)

McKinsey will select one award winning individual/team to receive:

- US\$1,500 financial award
- A McKinsey mentor to advise you as you consider your career aspirations
- Opportunities to showcase your work to the McKinsey community and your peers on campus

## Award Parameters:

- All geographies are eligible
- Includes formal programs, internships, or projects with organizations
- Includes independent projects or research for junior independent work or course related work
- Excludes study abroad through an educational institution
- Students may submit only one project application, with group submissions of no more than four students permitted. For group submissions, please align on one team member to submit on behalf of the group.
