Seminar Series**

Tiny Glowy Things: My Path to Chemical Engineering

William Tisdale

ARCO Career Development Professor
MIT Chemical Engineering

2pm EDT via Zoom

Monday, September 21, 2020

[RSVP: https://doodle.com/poll/yi4xp2xa8bqzrvig](https://doodle.com/poll/yi4xp2xa8bqzrvig)

Tisdale focuses on the development of colloidal semiconductor nanomaterials for use in next-generation energy technologies, and the use of ultrafast laser spectroscopy and advanced optical microscopy techniques for probing dynamics at the nanoscale.
