Sean Hunt is the co-founder and Chief Technology Officer (CTO) of Solugen. As CTO, Sean is focused on utilizing novel metal catalysts, scaling up proprietary process technologies, and developing the framework for Solugen's mini-mills. In 2017, Sean became an alumnus of Y Combinator and Forbes 30 Under 30 in Industry and Manufacturing.

Sean holds a PhD in chemical engineering from MIT where he studied renewable energy and green chemical manufacturing on metal catalysts as an NSF graduate research NSF graduate fellow. Sean lives in Houston with his wife, Wenly, and his two Pomeranians, Wolfgang Hunt and Kylo Ruan. Outside of work, Sean is a semi-professional juggler.
