

PRESENTS:

MELIKE YERSIZ

TUESDAY MARCH 30TH, 3-4PM EDT

Melike Yersiz (Class of 2007, Courses 10B and 21M) is a Chemical Incident Investigator at the U.S. Chemical Safety Board (CSB). She and her teammates investigate causes of industrial chemical accidents and issue recommendations to companies, government agencies, industry groups, and others to improve chemical safety across the nation. Melike started her career as a refinery process engineer at Chevron, where she worked for 12 years in various roles in process engineering, operations planning, and process safety management. Melike now resides in Berkeley, CA, where she enjoys being creative and sings in choirs, one of which she manages.
