

xFair is MIT's largest student-led career fair + tech expo held early spring each year. With companies representing industries from finance to software to biotech, every student (MIT undergrad, grad, and alum) can find an opportunity just for them! At the fair, beyond jobs, you'll find interesting conversations, free swag, and more on **Monday, March 8th, 2021 (long weekend!)**. xFair will be held virtually on an online career fair platform, **Brazen, from 11AM - 4PM EST**.

Students can register for the fair [here](#). Check out our [Facebook](#) and [Instagram](#) for more information and relevant updates regarding **tech talks, raffles, and other events** as xFair draws closer.
