

Friday, September 10 3pm VIRTUAL	<b>Prof. Jian Qin, Stanford University</b> Effects of Connectivity, Polarity and Stoichiometry on Polyelectrolyte Complexation
Friday, September 17 3pm 66-110	<b>Prof. Benjamin Keith Keitz, University of Texas – Austin</b> Interfacing Living and Non-Living Systems through Extracellular Electron Transfer
Friday, October 1 3pm 10-250	<b>Hottel Lecture: Prof. Frances Arnold, CalTech</b> Innovation by Evolution: Bringing New Chemistry to Life
Friday, October 8 3pm 66-110	<b>Prof. Gerardine Botte, Texas Tech University</b> Electrochemical Technologies for Water Sustainability
Friday, October 15 3pm VIRTUAL	<b>Prof. Menachem Elimelech, Yale University</b> Selective Ion Transport in Membranes with Sub-Nanometer Pores
Friday, October 22 3pm Student-Invited	<b>Prof. Zhen-Gang Wang, CalTech</b> Effects of Salts on Liquid–Liquid Phase Separation
Friday, October 29 3pm VIRTUAL	<b>Prof. Ying Diao, University of Illinois – Urbana/Champaign</b> Understanding Assembly Pathways for Printing Functional Soft Matter
Thursday, November 4 E14-674	<b>Wang Memorial Symposium</b> (afternoon) <b>Wang Memorial Symposium</b> (all day)
Friday, November 5 E14-674	<b>Wang Lecture: Melissa Moore, Moderna</b> (1pm)
Friday, December 3 3pm TBD	<b>Prof. Zhenan Bao, Stanford University</b> Understanding Molecular Design For A Stable Lithium Metal Electrolyte Interface
<b>MIT Community Only</b>	ZOOM links will be posted the day of the seminar. <a href="http://cheme.mit.edu/seminar-series/">http://cheme.mit.edu/seminar-series/</a>
