

Koç University is pleased to invite you to a special talk by Prof. Dr. Metin Sitti, President of Koç University, one of Türkiye's leading research universities.

Drawing on his experience as an internationally recognized scientist and academic leader, Prof. Sitti will share insights into Koç University's research-driven graduate programs, its University 4.0 vision and the opportunities available for Master's, PhD and postdoctoral researchers across key focus areas, including artificial intelligence, engineering, medicine, sustainability and emerging technologies.

The talk will also highlight Koç University's strong global research performance, interdisciplinary culture and international collaborations, as well as the university's commitment to translating scientific excellence into real-world impact.

We warmly welcome prospective graduate students, postdoctoral researchers and faculty members interested in exploring research and academic opportunities at Koç University to join us.

Speaker: Prof. Dr. Metin Sitti
President, Koç University
